# EMPLOYEE OF THE MONTH

## CINDY REYNOLDS

**How long have you been with the company?**

I've had the honor of working for Quest for 25 years. My interest in this field came from 2 children with down syndrome playmates.

**What is something most people wouldn't know about you?**

Quest is the first job I ever applied for, therefore first interview I had attended. I was so scared that when required questions were asked I froze and even though I knew the answers I was unable to speak. I just sat there. Shortly after I went for another interview and was hired.

**What's the best advice you can give to someone who just started their career in this field?**

My advice to new employees would be, always put the individuals you support first and be kind.

**What has been your most memorable moment at the company so far?**

There are so many memorable moments during my employment at Quest it would take 25 years to list them all. Winning the employee of the month the most recent.

**Where would you most like to travel to and why?**

I have always dreamed of going to Disneyland. This dream almost came true until my husband became ill shortly after we booked the trip. As a result the trip was cancelled.

Cindy was nominated for going above and beyond to help others have a good day, always being there to talk, and helping everyone.

# Healthy & Safety

Did you know that OHS requires Quest to notify employees of any health and safety hazards at the work site? This awareness allows you as the employee to actively participate in preventing and resolving any OHS issues at your work site.

As employees it is your responsibility to:

- Take reasonable care to protect the health and safety of yourself and others
- Cooperate with management to protect yourselves, coworkers and any other person present
- Reporting to management your concerns about any unsafe or harmful work site or work site condition

Quest has developed a Hazard Assessment for every location within Quest – residences, AIR programs, and the main office. This is kept in the Health & Safety site binders for employees to review. Quest also has the Near Miss/Hazard Form that must be utilized by any employee to report safety concerns. A near miss is an unplanned event that did not result in an injury, illness, or damage to property but had the potential to do so. A hazard is a situation, condition or thing that may be dangerous to the health and safety of employees.

Each month the Health and Safety team reviews all Near Miss/Hazard forms submitted and provides a summary that is accessible to all employees. This can be found on the Teams Public Hub Joint Health and Safety Committee channel.

# Access to Dining

with Michael & Sean

This month we went to Bon Sushi which is located at 1283 3rd Avenue South. The last time we ate here was before the COVID 19 lockdown. The same family runs the restaurant and they were very friendly. The food was very tasty as Michael and Sean had the Teriyaki Chicken Rice bowls. There were plenty of vegetables and chicken breast in the bowl. The menu has many types of sushi as well as ramen dishes. The spicy seafood ramen was very filling as a staff member ordered that. Many agreed that we need to go back again some time as the food was good and prices were reasonable. A second sushi restaurant was Makisu located at 1517 Mayor Magrath Drive South and we were able to do the all you can eat that included sushi, noodles, rice, teriyaki meats, and others. The food was prepared fairly quickly and was enjoyed by all. The cost was \$25 per person so you need to bring a healthy appetite to get your value. Again this is another location that we had not gone to since before the lockdowns. Hope you enjoy trying different foods around town and we hope to see you joining us on these outings!
